

# JPNUNAN - BLACKWATER ARCHAEOLOGICAL & HERITAGE SERVICES

## SERVICES

**JPNunan Blackwater Archaeology** is a local community based service offering a **competitively priced** comprehensive range of archaeological and heritage services including:

### Impact Assessment

As an essential part of Archaeology in the Planning Process JPNunan Blackwater Archaeology provide comprehensive Impact Assessments. These extensive desk-based studies and field surveys require attention to detail, and substantial experience to ensure the best possible results, highlighting the archaeological potential of any project and providing concise and clear solutions.

### Built Heritage Assessment

Heritage, archaeology and architecture all combine to produce an insightful study into the development of Irish buildings. Where these assessments are required we provide the necessary documentation and information.

### Archaeological & Heritage Management

JPNunan Blackwater Archaeology has many years experience and knowledge dealing with urban and rural pre-development archaeological resolution in the Planning Process.

### Monitoring & Test Excavation

Monitoring and Test Excavation seek to determine the extent and nature of archaeological remains and integrate the findings into an overall project plan.

### Excavation

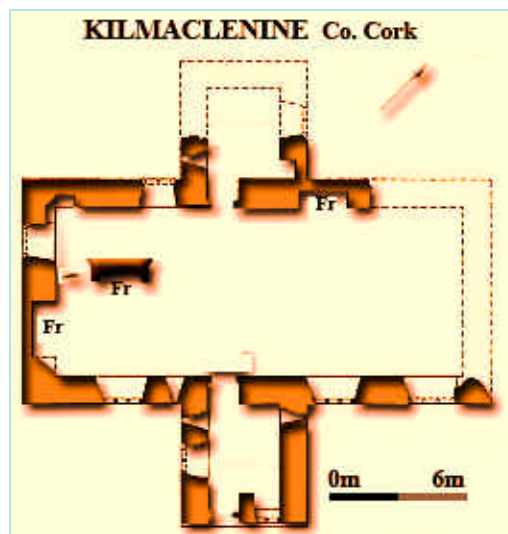

Excavation is procedure of last resort. We try to **avoid** excavation for **preservation in-situ** where and when this is possible. We provide all skill sets necessary to conduct excavation in a timely and competitive manner.

## PROFILE

**JPNunan Blackwater Archaeology** is a local community based service provider offering a **competitively priced** comprehensive range of archaeological and heritage services. We have worked extensively in research \ commercial archaeological and heritage both in Ireland and USA. Our staff are highly trained and have been involved in some of the largest infrastructure projects undertaken to date in Ireland and have a proven track record.
